RECEIVING THE NEWS.

We have made arrangement to receive the news from Indiana, Ohio and West Virginia to-night direct from headquarters. Two special wires connected with the main lines will be run into the GAZETTE office, and an experienced operator be at the desk to receive the news. We will thus have the earliest and most reliable intelligence from Indianapolis, Cincinnati, Cleveland, and all other important points in the two Western States, as well as from Wheeling and other towns in West Virginia. As fast as received the returns will be bulletined.

NEWS OF THE DAY.

—The physicians have forbidden Patti to visit Russia this winter.

—A Georgia paper says General Bragg's life was insured for $40,000.

—The voice of the "popular lecturer" is beginning to be heard in the land.

—The political astronomers have their telescopes turned toward Indiana to-day.

—Jake Rehm has doffed the stripes, and roams around Chicago a free man again.

—For Sale—A few empty bar'ls. Apply to the Democratic State Committee, Colorado.

—Blaine warmed them up at Painesville, Ohio, last night, and closed the campaign with *eclat*.

—The betting men were displaying their wealth yesterday, but the bets were not numerous or heavy.

—The Democratic percentage man has evidently been paid off, and old Ananias himself employed to fix the figures.

—Emmanuel de MacMahon, second son of the Marshal President, figures the eleventh, among 358 at the Military School at Saint Cyr.

—The committee in charge of the revival meetings to be held by Mr. Moody in Boston asks for $30,000 to lease a piece of land and put up a building.

—Virginia, "the mother of Presidents," is too poor to have a day at the Centennial show, says Governor Kemble. The way of the transgressor is hard.

—Herr Best, the last Meistersinger of Nuremberg, died lately at Ulm in his eighty-sixth year. He was a gravedigger. He always did Herr level best.

—Maj. W. W. Lander, formerly Private Secretary to Charles Sumner, but for the past two years a well-known politician of Colorado, died yesterday forenoon at Denver.

—"What ails dis beoples of America," says an old traveller from Germany, "is dot dey walks mit der legs too much in der sthreet gars out, und don't got some muscles some more."

—What is the difference between the debris of the late explosion and certain political orators? Answer: In one case there is considerable lying around loose, and in the other there is considerable loose lying around.

—"Governor Tilden," said a young lady who admires the old man, "do let me straighten your Collar—ah—do." And she couldn't understand why the old man turned so pale and walked away as though she had said something that had offended him.

—A Montgomery paper shouts the glad tidings that the white frosts have nipped the yellow fever buds, and thoughtfully adds that timid people may as well return to their homes and advance their business interests by advertising freely in its columns.

—"There is something peculiarly sad," said Potter, "in the recollection of our youth. Tears will come up into the eyes at the thought of those bright days when the setting sun saw us taking paregoric to neutralize the effect of the morning's green oranges."

—The investigation at Madrid into the murder of General Prim, commenced six years ago, has just terminated. As many as one hundred and twenty persons were implicated, but it was not found possible to fix the guilt of the crime on any one by absolute proof.

—As an indication of "how it is done" we observed last week that the creditors of a certain bankrupt had voted to accept ten per cent. of his indebtedness for their claims. On the same day we saw the individual going through a lot of rare books and furniture to be offered at auction and noting prices which perhaps he intended to bid.—*Boston Bulletin.*

—Men now who are waited on by committees to induce them to stand for office, before accepting, ask for sufficient time to collect all their private letters, telegrams, wash and market bills, plug up the knot holes in their back-yard fences, and to engage the services of five fighting men, two expert lawyers, and a distillery; these precautions being necessary to meet the opposition.

—John Look, a soldier under the first Napoleon, died in Detroit last week, at the age of ninety. He lost a finger at Wagram, and served under Marshal Soult in Spain, taking part in the battle of Corunna, at which the English commander, Sir John Moore, was killed. Mr. Look had more than one conversation with Napoleon, and noted with great pride that the Emperor always remembered his name.

—It was absurd enough of some Sheffield manufacturers to propose retaliatory duties on American produce, because our protective tariff had injured their trade. The British Government very prudently decided not to entertain the suggestion, seeing, no doubt, that its adoption would not affect the fiscal policy of this country. The heavy duty levied in Great Britain on American tobacco has not, for instance, caused us to lower our tariff.

—The heirs of William Penn now receive from the British Government and are to receive "forever," $20,000 a year, in compensation for their proprietary rights to Pennsylvania. The London *Echo* suggests that "considering the very dubious claim the old Quaker ever had to the State which bears his name, and that it is now the great Republic's, it might not be impertinent to suggest that the United States Congress should take over the liability for the pension, with the other privileges attaching to it." The daughter of a famous Attorney-General of Florida when a Spanish colony, received until this year a pension of $750.

—Although the mortuary reports of yellow fever are still running high in the South, the disease seems to be yielding more readily to treatment in Savannah. At Brunswick, Ga., Yellow Jack has been leading a ghastly death-dance. A letter from that city states: "Many of our prominent men are dead. Several are now sick, but we hope will recover, as we have five physicians and fourteen nurses who are beginning to get the fever under control. So many of our people are away there are but few more to have it, and from the number of new cases taken down every day, it seems that none will be exempt. All business is stopped, and will be for some time to come. The fever is extending among the negroes. Pray and work for us."

—Cuba has during the last eighty years been the grave of the ambition of a great many Spanish war captains, as well as the grave of a great many Spanish soldiers. Martinez Campos, with blushing honors thick upon him from the proclamation of young Alfonso and the campaign against the Carlists, is about to undertake the task of smothering the Cuban insurrection. Twenty-four thousand additional troops are going with him. General Jovellar is to remain as Captain General, while Campos will command the armies in the field. Here, then, is a great chance for the latter. Spain in sending this General pledges her utmost endeavor to crush the rebellion. The arrival of Martinez Campos in Cuba will give a renewed interest to the struggle.

—Swindled Savings Bank Depositors are fast becoming a large class among us, says the New York *Herald*. Scarcely a day passes but some case of especial hardship arising out of the criminal mismanagement of the bank officials is brought to light. There is one feature of the successive breakings of the savings banks which makes it imperative on the community to provide a means of punishing the rascals who dissipate the humbler classes—namely the discouragement it gives to habits of economy among them. If the laboring man who spends his surplus earnings in rum is to be as well off at the year's end as his thrifty fellow who denies himself the bestial luxury of drunkenness that he may put a little money by for the "rainy day," what encouragement has the thrifty man?"

—Malarial fever at the Centennial is something whose presence is undeniable. We think, in view of the facts which have come to light, that it would be much more becoming in the Centennial managers and Philadelphia editors to give the myriads of visitors a little plain advice as to how they may best escape the Centennial sickness than to denounce as they do all who tell the truth about the matter. We advise the visitors from other cities to avoid drinking water in Philadelphia that has not been boiled; or if they drink cold water to mix a little wine or spirits with it, not to go to the Exhibition very early in the day or remain very late, and, above all, not to tire themselves out day after day tramping over the Exhibition grounds. If an ordinarily healthy man or woman follows our advice they need have little to fear from a week's stay in Philadelphia.

A Battle with Montenegrins.

RAGUSA, October 9.—On Saturday night the Montenegrins, having received a reinforcement of 2,500 men, attacked Monkhtar Pasha, and compelled him to retreat to the frontier. It is stated that 850 Turks were killed, while the Montenegrin loss in killed and wounded was about 115. The opposing forces are now confronting each other on a line extending eight miles.

Conscription in Servia.

Roumanian "Maneuvres."

BUCHAREST, October 9.—The Prince of Roumania has ordered both the standing army and the reserves to assemble for maneuvres.

European Conference.

LONDON, October 9.—A dispatch from Vienna says it is understood in diplomatic circles that the idea of a European conference may be considered abandoned. It is true that Russia had officially accepted the English proposal of a conference, but she did not expect success therefrom, as it would have been incumbent upon her to advocate in the conference proposals perhaps more extensive than those which she has already made, and which have been rejected by Europe. The latest idea is that the ambassadors should draw up and superintend the execution of a programme of reforms on the basis of the Berlin memorandum.

The Struggle at Belgrade.

A dispatch from Belgrade says the struggle between the peace party under Foreign Minister Ristics and the Russian military party is becoming more pronounced. So far M. Ristics appears to gain the ascendency. An envoy has been sent to General Tchernayeff to request him to discontinue the use of the royal title in addressing Prince Milan.

Russia's Precautions.

The *Eastern Budget* says Russia is preparing for all contingencies. Arrangements have been made with the Black Sea Navigation Company to remove the Russian colony in Constantinople to Odessa in case of danger.

An Armistice.

LONDON, October 10.—A dispatch to the *Daily Telegraph* from Constantinople reports that an armistice for one month has been agreed to. This announcement must be received with caution. The same dispatch states that the Grand Vizier resigned on hearing that England's last proposal was intended as an ultimatum.

Gladstone on the Eastern Question.

LONDON, October 10.—At a public meeting held in St. James Hall last night to consider the Eastern question, a letter from Gladstone was read. Gladstone severely attacks the administration for what he calls persisting in a policy condemned by the nation and not supported by Parliament. He expresses the conviction that making Bosnia, Herzegovina and Bulgaria independent of the Ottoman will would end the controversy, but he declares he has exhausted all hope that the Government will see the true merits of the case.

Montenegrin Victory.

LONDON, October 10.—A dispatch from Cettinge reports that the Montenegrins have turned the positions on Monkhtan Pasha, and entered Trebinge and Lynbinge. They burned the latter town. The Turks are now cut off from reinforcements.

A telegram from Belgrade states that Gen. Tchernayeff telegraphed to Prince Milan that Gen. Antiech on Saturday occupied all the villages in the Toplitza Valley.

Autonomy Schemes Rejected.

A dispatch to the *Times* from Belgrade says the Bosnian chiefs have held a meeting and rejected the autonomy schemes as totally inadequate to make the merits of a case.

Cossacks and Russians arrive in Servia by the hundreds daily.

SPAIN.

Drafting for Cuba.

NEW YORK, October 9.—A dispatch from Madrid states that the draft is proceeding. Twenty-four thousand soldiers for Cuba were drawn yesterday without disturbance, and these men will soon follow the sixteen thousand already on their way. A member of the ministry states officially that General Martinez Campos goes out to Cuba as Commander in Chief of the Spanish army, which is to crush the insurrection, and General Jovellar is to continue Captain General of Cuba.

Affairs in Cuba.

LONDON, October 9.—In connection with the conflicting reports relative to the Captain Generalship of Cuba, a correspondent of the *Standard* at Madrid, writing to that journal under date of October 3d, explains that General Martinez Campos was summoned to Madrid on the 2d of October, in consequence of the receipt by the Government of news of the recent capture of Los Tunas by Cuban insurgents. General Martinez Campos conferred with the War Minister and Senor Canovas Del Castillo, the Prime Minister, and stated the terms on which he alone was willing to assume the Captain Generalship. These terms included a draft of 15,000 men from the Spanish army, to be shipped before November, in addition to the 25,000 already under orders. He also demanded more artillery, and dwelt upon the necessity of a vigorous and effective blockade, to be enforced by martial law. He further demanded full and entire power to deal with all questions of reform and taxation without appeal. A Cabinet council, to which these terms were submitted, raised several objections, because of the heavy expense. The Moderado party particularly do not approve of Gen. Martinez Campos leaving Spain, because they desire him to become Premier in place of Canovos Del Castillo. This cause and the intrigues of Gen. Jovellar's friends are the principal obstacles which still prevent Gen. Martinez Campos going. The partisans of Canovos Del Castillo are proportionately anxious to send Gen. Campos to Cuba.

The Political Situation.

The Barcelona correspondent of the *Times* writes to that paper under date of October 5th, as follows: The reactionary Moderado party are gaining strength daily, and are forming committees in every province. Senor Sagasta and Marshal Serrano are in close conference, and will not accept the new constitution, which is supported by Canovas Del Castillo and his party.

The same correspondent, writing under date of October 2d, says: Though General Martinez Campos' appointment as Captain General of Cuba was then thought more probable, yet there was much talk of his taking the reins of Government if Canovas Del Castillo was unable to hold his ground.

LONDON, October 10.—A special to the *Standard* reports that General Martinez Campos is in Barcelona, completing his arrangements for going to Havana. He will sail about the middle of the month with a squadron of five men of war and several transports with troops. His acceptance of the command has been telegraphed to Captain General Jovellar, who is expected to return to Spain about the end of October.

WASHINGTON TOPICS.

Visitors at the White House.

There was an immense number of visitors to the White House yesterday, all of whom paid their respects to the President, who will leave to-day for New York for two or three days. Among the callers on the President were Senators Patterson and Robertson, of South Carolina, and Senator Spencer of Alabama.

Veterans Invited to the White House.

The President, in a note to Admiral Porter, says that it will give him great pleasure to meet again and take by the hand any of his old associates of the army of the Tennessee who may be pleased to call on him at nine o'clock on the evening of the 19th inst. The Admiral, in reply, says he will take great pleasure in communicating this invitation to the Society of the Army of the Tennessee at its approaching reunion in this city, and that he has no doubt the President's old comrades will accept the invitation and greet him in the Executive Mansion promptly and cordially as they were accustomed to do when he called them to duty on the tented field.

Resignations.

William Ireland, Chief Clerk of the Bureau of the Third Assistant Postmaster General, and Charles Andrews, principal clerk of its Finance Division, have resigned, to take effect on October 31st.

The *Evening Star* publishes a statement that Andrews and Ireland were removed on the alleged ground that they supplied Holbrook, an ex-special mail agent, and clerk to the Committee on Expenditures in the Postoffice Department, with certain information from the official records, which Holbrook furnished to that committee while it was engaged at the last session of Congress investigating the affairs of the Department.

Of the four counties not included in this list Grand is claimed by a small majority by both parties. Tapiatta county has a registered vote of 156, and cannot give either party more than a trifling majority. San Juan county is also claimed by both parties, and will not affect the result materially either way, as the whole vote of the county is small. Lake county is claimed by both, but has a very small vote, and cannot give either party much. The Republicans have two-thirds of both branches of the *Legislature*.

BEFORE THE BATTLE.

The Election in Indiana—Quiet but Intense Excitement in Indianapolis Yesterday.

INDIANAPOLIS, October 9.—The city has been in a state of quiet but intense excitement all day. Both parties are confident, and are jointly agreeing upon methods for preserving the peace during to-morrow. The indications are that a full vote will be cast all over the State. Preparations have been made for receiving and announcing the returns from the State. Bulletins will be sent frequently during the whole of Tuesday night.

Destructive Conflagration in Cleveland.

CLEVELAND, October 9.—A fire broke out early this morning in the elevator of Otis & York, on River street. The building and contents were completely destroyed. The building was occupied by the Michigan Central steamboat line and the Railroad Hotel. Several frame buildings, occupied by saloons, were also burned. The origin of the fire is unknown. The loss of Otis & York on buildings is about $75,000, insured for $35,000, and on grain, &c., about $35,000. The loss of the Michigan Central line on building is $25,000, and on contents $15,000; uninsured. The loss on other buildings and contents is about $2,000. The Co-operative Stove Company also lose about $4,000 on stoves in the elevator; no insurance. During the progress of the fire on River street a fire broke out in the Second Presbyterian church on Superior street. The building was almost entirely destroyed. The loss is $70,000; insurance $30,000. It is supposed the church caught fire from sparks from the elevator fire.

Sentence Commuted.

CHICAGO, October 9.—The President has commuted the sentence of Jake Rehm from six months' imprisonment and ten thousand dollars fine to three months' and one thousand, and at eleven o'clock this morning Rehm, having paid his fine, was released from the county jail, where he has been imprisoned. The commutation was made in accordance with a petition signed by five hundred citizens representing both political parties, and with the representations and recommendations of District Attorney Bangs and Judge Blodgett.

The New York Holocaust.

NEW YORK, October 9.—To-day the coroner impanelled a jury in the case of the men suffocated in the ship Europa. They then visited the vessel and inspected every part, especially where the men were suffocated. The jury were then discharged until to-morrow. The coroner addressed a letter to the captain of the vessel, requesting him to take charge until the conclusion of the inquest, and not to permit any candles or lights on board, and to prevent all smoking and fires of every description until after the inquiry is finished.

Virginia's Poverty.

RICHMOND, VA., October 9.—Gov. Kemper, in reply to an invitation to name Virginia Day at the Centennial by proclamation, has written, declining to do so. His chief reasons are the poverty of the people to respond in an appropriate manner, and that it is not customary in Virginia to use official proclamations for such purposes.

Four Coal Miners Killed.

POTTSVILLE, PA., October 9.—This morning while three loaded cars were being hoisted from the slope of the Middle Lehigh Colliery, at New Boston, the rope broke, and the cars ran rapidly to the bottom. Four miners, named Wm. Backus, Joe Backer, Thos. Jones and Ed. Nauss, were killed.

BLAINE'S OHIO TOUR ENDED.

His Last Bombshell for Democrats in the Buckeye State—A Rousing Republican Rally at Painesville.

Special to the Pittsburgh Gazette.

PAINESVILLE, OHIO, October 9.—The Republicans had a rousing demonstration here to-day and this evening in honor of the presence of the Hon. James G. Blaine. It is generally conceded to have been the most enthusiastic political rally we have had in this section for many years. Mr. Blaine seemed to be in the best fighting trim and made one of his characteristic speeches,—full of hot shot and shell for the Democrats. His visit has been of immense benefit to the cause in this section. It was a fitting close to a hot campaign. We will do our full duty to-morrow.

A FIGHT WITH INDIANS.

A Haying Party Attacked—The Redskins Repulsed.

CHEYENNE, October 9.—News from Fort Fetterman states that on the 6th a haying party of twelve men and seven ox teams were attacked by a band of twenty or thirty Indians twenty-five miles from the above post, badly wounding John Othens, wagon master, and killing one horse. Two of the party out hunting heard a war song, and hastened to the train, which was immediately prepared for defense. Four men started to find the Indians, which the did, and made a lively retreat, pursued by the Indians to within fifty yards of the train, when eight men sent a volley into the redskins, who retired to the bluffs and commenced firing on the train, which was at a disadvantage, and compelled to move two hundred yards, and the fight continued nearly four hours. The number of reds killed is unknown. Two were seen to drop. Mr. Powell, contractor, states that the Indians showed great courage, and were armed with Winchester and army rifles, the telegraph line between Fetterman and Cheyenne being cut about the time, it is though[illegible]

A large Republican mass meeting was held in the Allegheny Diamond last evening under the auspices of the Allegheny Veterans. The meeting was organized by the election of Major A. J. Pentecost as Chairman, and a large number of gentlemen as Vice Presidents. Short and pointed speeches were then made by D. L. Smith, Hon. John H. Kerr, W. Moore, H. A. Collier, J. C. Martin and Col. A. Blakely, showing the Democratic party in its proper light. The speakers were frequently interrupted by applause.

INDIANA COUNTY.

At a meeting held on Saturday evening, October 7, 1876, in Cochran's Hall, Apollo, by the Republicans, the "Harry White" marching club was organized, and over seventy members enrolled. The club is ably officered, and will render a good account of their work in November. The enthusiasm manifested on Saturday night gave unmistakable evidence that Apollo will give a larger majority than ever in vindication of Republican principles.

TEN THOUSAND MEN.

By actual count there were ten thousand men in the Republican demonstration on the South Side Saturday evening. Following is the count by divisions:

Allegheny Division	2,530
East End Division	2,083
Old City Division	3,097
South Side, East and West End Divisions	2,450
Total	10,160

The error made by the Sunday papers, in putting the Republican procession on Saturday night at 6,000, was caused by the fact that they counted the procession on this side of the river, thus excluding the South Side clubs from the count altogether. As there were 2,500 men out from the South Side, this would bring the count up to 8,500 to which add the glee clubs, marshals, aids and men on horseback and in wagons, who bore no torches and were not counted, and the total runs up to over ten thousand.

The "Hayes, Wheeler and Hopkins Club" is a fraud. It is composed of thirty-seven members, twenty of whom are aliens, ten Democrats and seven bummers, whose votes are in the market and can be purchased at any time for a drink of whisky. The club was equipped at Hopkins' expense, and he is either false to Tilden and Hendricks, or the club has no intention of voting for Hayes and Wheeler. The latter is no doubt the true solution of that difficulty, and the club is parading under false pretenses when it pretends to be for Hayes and Wheeler.

THE MAINE STATESMAN.

Old City Hall has been secured by the Republican Committee for the grand ovation to Senator Jas. G. Blaine on to-morrow, Wednesday evening. It is not yet definitely known what time Mr. Blaine will arrive here, but a dispatch is expected from him to-day. Should he arrive in time on Wednesday a reception will be given at the Monongahela House. At City Hall on Wednesday evening the speakers' and reporters' stand will be placed on the east side of the hall, and the north end platform will be reserved exclusively for ladies. Gentlemen accompanying them will have to take the floor.

REPUBLICANISM IN MILLVALE.

A grand rally and enthusiastic meeting was held on Saturday night in Millvale borough, which was the night appointed for the presentation of a beautiful silk flag to the Millvale Hayes and Wheeler Marching Club. An invitation had been given to the Eighth ward club of Allegheny, and they responded nobly with a hundred men, well equipped and uniformed. The presentation speech was made by John J. Williams, Esq., and Mr M. W. Lyon responded for the club. Both gentlemen spoke well, and were loudly cheered, especially when reference was made to the glorious Stars and Stripes, the emblem of the free and the brave. Look out for a rousing majority from Millvale borough for Hayes, Wheeler and Bayne.

THIRTEENTH WARD.

The Republicans of the Thirteenth ward will hold a meeting this evening on Thirty-third street, which will be addressed by citizens of the ward. The Thirteenth ward Invincible Club, the splendid equipment and marching of which attracted so much attention in 1872, has been re-organized and will attend the meeting. The club when enroute to the place of meeting will be halted twice and presented at one place with an elegant banner, at another a beautiful flag.

FIRST WARD REPUBLICAN CLUB.

At a meeting of the First ward Republican Marching Club, Captain Hasley, held last evening, it was stated that a rumor had gone abroad that some members of the club did not intend to vote the whole ticket. Upon demand a call of the house was made and every man took the floor and announced himself for the whole ticket. It was then resolved that the name of the club should be the First Ward, Hayes, Wheeler and Errett Club.

PRESENTATIONS.

This evening a beautiful and costly flag will be presented, on behalf of the Misses Annie Marshall, Hattie Scott and Maggie Satler, to the Ninth ward Hayes, Wheeler and Errett Club. The flag is entirely the work of these ladies. The presentation will take place at seven o'clock, at the residence of Miss Marshall, on Twelfth street. All clubs of the two cities are invited to be present.

The ladies of the Third precinct of the Thirteenth ward will present a beautiful banner this evening to the Thirteenth ward Hayes, Wheeler and Errett Invincibles. The presentation will take place on Thirty-third street, near School House No. 2. All are invited.

ESCORT TO SENATOR BLAINE.

The Russell Errett Marching corps, Captain Barr, and the Thomas M. Bayne Continentals, Captain McCombs, will escort Hon. James G. Blaine from the Monongahela House to City Hall. The clubs are notified to meet at their respective headquarters at 7 o'clock sharp, and to meet at the hotel at 7:30.

The election news from Indiana and Ohio will be announced to-night from the stand over the entrance to the Republican headquarters, Fifth avenue. No crowd will be allowed in the rooms up stairs owing to fears for the safety of the building.

WATER EXTENSION BUSINESS.

Meeting of the Committee Last Night—The Hiland Avenue Reservoirs Taken Off the Contractor's Hands—Another Communication From Engineer Lowry—Change in the Plan for Rising Mains—Routine Business.

A meeting of the Water Extension Committee was held last evening, Dr. McCandless in the chair.

The pay roll and bills for September, as follows, were approved:

Bills	$1,434.71
Employes at foundations	352.57
Street hands	21.70
	$1,808.98

Mechanical Engineer Lowry called the attention of the committee to the fact that they had ordered the construction of a street at the works, and the erection of piers for carrying up the rising mains to the reservoirs. He recommended that instead of piers a solid stone wall be erected. By the change of plan the mains will be perfectly secured and permanently fixed. There is abundance of stone at the works to build the wall, and the cost will therefore not be more than $2,000 greater than by the original plan. The advantages of permanency, stability and perfect security of the pipes will be obtained, while by the other plan, the pipes will be too much exposed, and in danger of damage by fire.

Several of the members were opposed to the change, because of the additional cost and their belief that the city should build the road, *i. e.* that the money for it should not come out of the Water Extension Fund.

After some discussion the committee decided to adopt the changed plan, only one member voting against it.

The bond of Thomas M. Miller, who was awarded the contract for certain castings some time since, was presented, but not approved, as the bondsmen had not sworn to the statement of the value of property owned by them. The contract and bond were referred back to the Mechanical Engineer and the City Attorney for reconstruction.

The resolution from Councils asking the committee to ascertain and report what condition the new water works are in, how much money is needed for their completion, and what amount of damage, if any, the city has sustained by the failure of contractors to finish their work, and the amount of penalties incurred by them by such failure, was referred to the Mechanical and Civil Engineers, in conjunction with the City Attorney, for examination, and report to the committee.

Mr. Hughes, from the Reservoir Committee, stated that the reservoirs are completed except a portion of the coping, and it has been decided to leave that to be finished next spring. The idea is to wait until the walls have settled as much as they will likely do. The reservoirs have never been thoroughly tested, and it was therefore not thought advisable yet, by the sub-committee, to take the work off the contractor's hands. The Committee and City Engineer are perfectly satisfied with the work. Besides, the Committee feel that it is but justice to Mr. Walters, who completed the work at his own cost, and who is not responsible for the neglect of the other contractors to complete their work, that he be paid for what he has done, retaining sufficient to insure completion of the contract.

After a very lengthy discussion on motions of different kinds, one by Mr. Torrence, that the contract be taken off Mr. Walter's hands, subject to a reservation sufficient to complete the work, was adopted by a vote of 11 to 4. A motion by Mr. Atcheson, that the Engineer be instructed to make an estimate on the work done and report at the next meeting was also adopted.

The Mechanical Engineer presented a communication complaining again of the slowness of the work on the engines. He says that the first pair of engines are now no nearer completion than they were three months ago. He felt disposed, however, to give credit for the energy displayed by the contractor in the work on the engines at the foundation, and believed that if similar energy is shown in the shops one pair of engines will be rapidly completed.

The smoke stacks and boiler walls are being rapidly built, and will be completed in the time designated in the contract, viz., December 1st. He was authorized to place a man at the works to supervise the building.

Adjourned to meet on the 2d prox. instead of the 4th.

AMUSEMENTS.

Pittsburgh Opera House.

The humor that always pervades an Irish drama, if it is a true one—and of course there must be pathos also, for Celtic fun and sentiment are inseparable—never fails to reach the popular heart. It was in meritorious Irish plays that some of the actors best known to dramatic fame made their reputation, and now another aspirant for honors in that line makes his appearance in the person of Mr. Joseph Murphy, as fine looking an actor as ever twirled a shillaleh. He enacted the part of *Dan. O'Hara* last night in "Kerry Gow," and clearly demonstrated that he does not and need not depend for success upon anything else than his own natural ability. As a delineator of Irish character he is already—and he has barely commenced to play leading roles in comedy—the superior of many who have been on the stage for years. He grew in favor with the audience last night as the play progressed, and when the curtain fell he had established himself firmly in the good graces of probably all who were present. The drama, written especially for him by Fred. Marsden, is a very good one, but it is distinguished by nothing exceptionally fine. It is to be commended, however, for its freedom from anything startlingly sensational, but it possesses what writers of Irish dramas as a rule seem to think absolutely essential, and that is the customary battalion of red-coated British soldiers interfering at a very inopportune moment in what should not concern them. "Kerry Gow" will be played all week, and as Mr. Murphy is an able artiste and a polished gentleman, he deserves success. There is no doubt but that he gave general satisfaction last night. His support was, with one or two exceptions, very good.

Library Hall.

To speak candidly, the writer went to Library Hall last night under the impression that he would see a mediocre actress and a rather indifferent play. He left at the conclusion of the performance with an opinion very strongly the reverse on both points. For one so young Miss Rogers displays ability as an emotional actress that is remarkable, and a few years more experience and study will enable her to stand side by side with Clara Morris. We cordially bear witness to her high talents, and do it all the more freely because she deserves and is worthy of it. This is strong commendation, of one who comes here a total stranger, but we feel that its justice will be amply demonstrated before the close of the week, and if it is not it won't be our fault. In the closing scene of the second act the skill and power that Miss Rogers displayed in manifesting the emotions that rack the bosom of a loving wife at feeling herself obliged to part from a husband whom she believes no longer cares for her we have rarely seen surpassed in point of intensity, and the generous applause she got, together with the call before the curtain, were both merited. Again, in the scene in *Nate Harpin's* house, when she is expecting a letter from her husband, the exhibition of alternating hopes and fears, the moments of eager expectation succeeded by doubts and despondent thoughts, were all so very true to nature and so affecting that the tear-drops could hardly be forced back. Miss Rogers is an exquisite as well as a powerful actress and has an exquisite play—a play as pure and as free from meretricious qualities as the most fastidious could demand.

The North Carolinians.

The North Carolinians were greeted with a good audience at the Academy of Music last evening, and will no doubt draw out a good attendance to-night, for they seemed to give universal satisfaction. They have superior voices and excellent dramatic talent. They make a specialty of musical sketches which are a great relief to the sameness which pervades the style of the Tennesseeans, Hamptons and other similar companies. Their programme is replete with original comicalities which are always enjoyable.

THE skies are bright in Ohio and Indiana for the Republicans.

THE figures keep up in Colorado, and show a sweeping Republican victory.

JEFF. DAVIS writes a letter endorsing TILDEN. Thus do all the unhung rebels.

THE President [illegible] his hands full "rec[illegible] called to pa[illegible]

[illegible] in this city are as much [illegible] the conflicts in Indiana and [illegible] as though they were of a local character.

WE have made arrangements to receive the news to-night by special wires, and will bulletin the returns as fast as they come in.

THE Know-Nothing roorback, sent out with such a flourish of trumpets from the Democratic Literary Bureau, has suddenly collapsed.

THE Democrats at St. Louis have found it necessary to swap horses in crossing a stream. They have patched up a new county ticket.

THE Ohio campaign was closed last night grandly by a demonstration at Painesville, at which the Hon. JAMES G. BLAINE was the speaker.

THEY call him Moth-eater MCCLELLAND now. He was to receive five per cent from COWLES & Co. on the amount paid them on the moth-exterminator contract.

DOWN in Tennessee a paper accuses certain ex-Confederates of "deserting the Confederate cause" in coming out for HAYES and WHEELER. That is about the measure of it.

AFTER all BLAINE was right, and ALEX. MCCLURE, who made himself merry at what he termed the inaccuracy of the Maine statesman in reporting the result in Maine, will have to eat crow. The boot is on the other leg, and ALEX. is the man to laugh at now.

TYLER, the Secretary of the American Alliance, denies the several reports circulated by the Democrats, relative to any affiliation between Governor HAYES and the order. He claims that all there is of the affair is contained in the simple offer of support, and that is all.

NOW THAT the elections in the great October States will be disposed of to-day, we will have renewed activity in all other States. In Western Pennsylvania but moderate activity prevails, but arrangements are in progress to give great enthusiasm to the remaining portion of the canvass.

THE official returns from Maine show a Republican majority of over 15,000. The Democratic mathematicians, who had so satisfactorily to themselves figured it down to 11,000, will now be under the awkward necessity of revising their calculations, while they are the laughing stock of the country.

GOVERNOR FAIRBANKS, of Vermont, in his inaugural address, said: "I shall take no time to consider national affairs. If each State will wisely and honestly conduct its own affairs so as to insure to itself and to the nation intelligent, virtuous and enterprising citizens and public servants, national affairs cannot well go amiss."

THE Cincinnati *Commercial* has made a careful estimate of the probabilities in Ohio, and after discussing the many influences which controlled the popular vote in 1872, it concludes that the Republicans will carry the State by about the majority of that year,—14,147. This is better than has generally been expected, and will prove a noble triumph, if realized.

THE "Solid South" idea, on which the Democracy are conducting their political canvass, has inspired the North with the idea that an equally solid North is in order. No terrorism or trickery is spared to consolidate the South in the interest of the Democratic party. The solid North, however, met the solid South in battle and conquered it; it can do the same again at the polls.

THE improved and improving tone of feeling among Republicans in the Twenty-second Congressional District, has dissipated the doubts entertained by some, and the success of the Republican candidate is regarded as assured. In the Twenty-third District there has been no doubt, for some time as to the result. Energy, and effective work have been steadily telling in the canvass.

THE value to us, of the policy of the Republican party, providing for the protection of American industry, is shown by the proposal, seriously brought to the attention of the English Government, to retaliate by levying duties on American iron brought into England. Yet the policy that has thus proven our strength, is the one that would be abandoned by the Democracy, if they had power in the nation.

THE Sultan of Turkey has not, as yet, officially responded to the *ultimatum* of England, to agree on an armistice until peace can be secured by discussion and agreement. The intimation on the part of England that she will not permit Russia to occupy Constantinople, will not impress the latter power agreeably. Affairs are still in a very uncertain shape, and a general war may be precipitated by a single unfortunate move.

THE determination of Hon. JAMES G. BLAINE to speak in this city on Wednesday evening, will be highly appreciated by his many friends. He has many ardent admirers, not merely in this city, but in all Western Pennsylvania, and, we might say, the Eastern portion of the State as well; and those in this region will attest their earnest regard by giving him a cordial reception. He has done noble service in Ohio and Indiana, and will be heard with pleasure here. The old City Hall should be crowded, as it was when INGERSOLL was here, on Wednesday evening.

FROM all that we hear, we are satisfied that a rousing reception awaits Hon. J. G. BLAINE on his arrival in this city. His popularity has not increased, probably, since his gallant fight with the Confederates in the House, but it has not lessened. The eager anxiety of the people to see and hear him continues, and the tide of feeling runs higher than on the occasion of INGERSOLL's visit here. To-day JAMES G. BLAINE has a stronger hold on our people than any other person of whom we have knowledge. We have no regrets for the stand we took in his favor, and honor him the more that he has done such gallant service for HAYES and WHEELER.

THE anticipated proclamation, by Governor CHAMBERLAIN, as to illegal military organizations in South Carolina, has been issued. It is responded to by the Democratic Executive Committee, and the judges, who are nominally Republican, but who are incensed at CHAMBERLAIN for his opposition to MOSES, side with the rebels. The fact that there are military organizations not provided for by law, and that they have undeniably assailed Republican meetings—one at which the Governor was present—shows that there is need for strong action. Either this must be taken, or South Carolina terrorized into the power of the Democracy.

IT seems that BRET HARTE received full compensation for, and parted ownership with his play, the property passing into the possesion of STUART ROBSON. It thus appears that he was only defending his literary reputation, and not seeking after financial results, in his controversy with the New York dramatic critics. It is declared that he gave the names of several of those critics who received money, and offered, if a libel suit were brought against him, to prove that they had done so. One is reported to have been discharged, but the papers have suppressed the entire subject. It looks very much as if HARTE were right; but, with the spirit manifested against him, he will probably suffer because of his pugnacity.

THE decision of Justice CLIFFORD in the NEAL DOW case, is likely to cause more discussion than any other decision recently made in a United States District Court. It was directly and definitely in the interest of the Democratic party, and was intended to aid and encourage them. It was held in abeyance a long term of years, during which Republican ascendancy was unmistakable, and as soon as the Democracy show some strength, this decision is promulgated. And it means that a judgment, hatched up for some charge made for losses suffered during the war, in the Southern States, shall be affirmed and sustained by the United States Courts. Let that doctrine prevail, and it means that those who commanded our armies, and our soldiery themselves, shall be mulcted in costs for the occupancy of rebel soil during the war. Such is the first outcropping of rebel influence since the war.

THE more the Georgia election is looked into the more perfectly it illustrates the effect of Democratic control in Southern States. The quietness of terrorism and death was there, as shown by the fact that the colored vote was not out to any considerable extent, and part of what was, under intimidation, voted the Democratic ticket. That in whole districts, the people, white and black, should be Democrats, is simply impossible. Men left to freely investigate and think for themselves, will have differences of opinion,—hence when such unity prevails as the vote shows in Georgia, it is evidently strained and compulsory. It is, indeed, openly charged, that both fraud and intimidation were employed to control the colored vote in Georgia; and in view of what is seen in Southern States where Democrats are in power, there can be no reasonable doubt as to this. The majority is rather too unanimous.

THE wheat market, of the west is reported to have been sustained by artificial means, and not to be in a strictly healthy condition. A combination, believed to include parties in Chicago, Milwaukee and Montreal, have kept up the price of the speculative grade to so high a point as compared with the prices ruling in other markets that the business of shipping on legitimate orders has been stopped, the limits set to agents in Chicago having been 8@14 cents below the current market price here during the last half of September. The result of this combination was also to keep up the price of the old No. 2 [redacted]

as to its influence, by the votes of the people. The situation commands the deepest interest of the people, and we will throw such light on it as we may have. Ohio ranks as a Republican State, although it has been carried by the Democrats so often, that it may be fairly called a doubtful State. In the past four years,—1872-'75,—the Democrats have carried the State twice, and the Republicans twice. Our largest majority was at the last Presidential election, when President GRANT had 34,106 majority; and our smallest was last year, when Governor HAYES was elected by 2,957 majority. The largest majority gained by the Democrats in the time mentioned, was in 1874, when their Congressional ticket was carried by 17,417 majority. In 1873 their majority for Governor was 817. Thus Ohio is strictly a doubtful State. It is also to be borne in mind that in Presidential years our majority on the State ticket has not been equal to that afterward received on the Presidential ticket. Thus in 1872, we had but 12,105 majority for Secretary in October, to nearly three times as many in November. Thus Ohio, carried at all to day, will be good for a noble majority in November. The latest and best information we have points to the election of our entire ticket. The Democrats have made their principal fight on BARNES, our candidate for Secretary, on the theory that he was a temperance man, but he is regarded as safe. Of the balance of the ticket no doubt seems to exist.

Indiana, more than Ohio, has been the battle-ground of this campaign. This State is also classified as doubtful. Thus, in 1868, the Republicans carried the State, and in 1874 the Democrats were successful. The majorities for either party were quite similar in the years mentioned—the Democrats having about the majority in 1874 that the Republicans had in 1868. In 1872 it was mixed, the Republicans electing Congressmen and President, and the Democrats the Governor. At this time Democracy are in power in the State, and have the advantages resulting from this fact; but the prevailing belief is that the Republicans will carry the State by a small majority. It is understood that the Democracy will use all their artifices, and not stand on the methods to be employed, to carry their point. It is boldly declared that they have colonized voters from Kentucky into their southern counties; but a close watch will be placed at the polls to prevent illegal voting. It is conceded that if Indiana is carried by the Republicans, by however small majority, the Democrats cannot hope to elect the Presidential candidate.

West Virginia is at present a Democratic State, but has gone Republican as often as Democratic, and therefore ranks as doubtful. The canvass there has not been as urgent, and has not commanded national attention, as have those in Ohio and Indiana. The presence of candidates on the national tickets in the two latter States probably helped to give them prominence. But there has been a strong and earnest canvass in West Virginia, and our friends are confident of success. It is much to expect, and the moral effect of a victory in West Virginia would be little less than that in Indiana. We hardly dare endorse the enthusiastic hopes of our West Virginia friends, but will be abundantly gratified if they can realize them. The Legislature to be elected will have the election of a United States Senator, to take the place of HENRY S. DAVIS, Democrat. We cannot lose anything in West Virginia, and have the chance and hope of important gains.

We are gratified that we hold the advantage, as to prospects, in the States mentioned. If the Democracy should carry Indiana and West Virginia, they will simply hold what they now have. The moral advantage to them must be very slight. On the other hand, should either, or both of them, be carried by the Republicans, the moral advantage will be very great. Unless the anticipations of our friends are totally at fault, we shall have the entire list of States above mentioned. These, with Colorado, will make a grand opening into the list of doubtful States, and do all that could be asked to seal the destiny of the November elections. We can only say as to the battle now going on—God speed the right!

POLITICAL NOTES.

THIS is the day for the "Reform" funeral, and all the members of the party feel it. In Democratic localities "all the air a solemn stillness holds."

MR. TILDEN admits that for seven successive years he violated the requirements of the Revenue law, and was fined by the Government each time for so doing.

WADE HAMPTON looks forward to a general combination of the white and colored vote in the South. He says he always favored suffrage of the freedmen, and expected their 800,000 votes to unite with the 1,600,000 white votes, and form a great party, which should have unity and solidity.

THE illustrious exile who is now returning to this country from the Spanish port of Vigo has been absent long enough to write a book. S. S. Cox required only a few weeks' travel in Siberia to produce his "Winter Sunbeams." But Providence foresaw that, and cast the "Boss" in a different mould.

BLUE JEANS WILLIAMS, apostrophizing his trousers in a recent speech, said: "All the learning I ever got I got in these blue-jean trousers." Whereupon the Burlington *Hawkeye* is led to observe that it is very evident that Uncle Jimmy's preceptors, in the application of the ferule, knew where to feel for the seat of the embryo reformer's intelligence. He has no intelligence. Only in-jean-uity, you know.

MR. PARKE GODWIN and those who follow him have argued that no "bloody shirt" business would have been heard of in this campaign if Mr. Bristow had been nominated in Cincinnati. Yet Mr. Bristow made a speech in Lebanon, Ohio, on the 3d instant, in which he spoke of the "solid South" and the true meaning of that phrase as follows: "The people of the South are the same who plunged this country into civil war in 1861. They propose to-day to recover by the ballot all that was lost by the bayonet, and that is what the Democratic party of the North means they shall have." Colonel Moseby and Mr. Bristow agree—and both are Southern men by birth. Each is good authority, and each opposes Sammy for the good of the South and the nation.

THE Democrats have been claiming that the Republicans falsified the returns of the Connecticut town electians, and did not allow the "reformers" all the gains they were entitled to. The returns are all in now, and the general result is thus summed up by the *New London Telegram*: "Full returns from the town elections held last Monday show a handsome Republican gain. Not only have the Republicans carried more towns than a year ago, but they have succeeded in reducing the majorities in Democratic towns very substantially. Were it possible to get at the popular vote we think it would be shown that the Re- [redacted]

is not impossible that to-day may see some serious disturbance of the peace before the polls are closed; but it is not probable, because the Republicans of Indiana are of a determined type, and the Democratic repeaters will be likely to give them a wide berth when they discover their real character.

"The Country Parson."

Miss Kate Field wickedly tells in the *Graphic* these stories of the Country Parson: "Two trustworthy men assured me that they have seen the Rev. Dr. Boyd deliver a sermon in white kid gloves. More than one related to me the following story: Traveling one day in a railway carriage, 'The Country Parson' had for his neighbor a plainly dressed but extremely intelligent man, in whose conversation he became much interested. On finding that the stranger intended getting out at the town in which he resided, he expressed his desire to invite the clever unknown to dinner, but added that it would be impossible as Mrs. Boyd always required gentlemen to dress for dinner. Having made this graceful speech, the parson exchanged cards with his neighbor, who was the Duke of Arglye. The parson stammered; the parson apologized; the parson was snobbish enough to eat his own words and beg the Duke to waive ceremony. It it unnecessary to say that the Duke of Arglye did not waive ceremony, and that the story has flown from one end of Scotland to the other.

Getting a Seat in a Horse Car.

There is a fellow in New York who invariably gets a seat in a crowded street car by carrying an old oyster can, which he deposits with extreme tenderness beneath the legs of the most timid looking passenger, begging him not to move his feet around much, for there is enough nitro-glycerine in that can to blow up a thousand such cars. The passengers who don't happen to sit in the corner seats generally get out through the window, so that before throwing the can away the man has a choice of seats on both sides with the privilege, as far as the conductor is concerned, of putting both cushions on one side and lying down with his feet cocked up on the indicator. Another pleasant and efficient method is to label a small valise "Savannah," and carry it with the labeled side out, assuming meanwhile a distorted expression of countenance, as though the symptoms were approaching a crisis. This plan is more genteel than the oyster-can method, and operates with equal suddenness.

A Near Sighted Man.

A near sighted man out on South Hill, says the Burlington *Hawkeye*, went wandering around his carrant bushes yesterday afternoon, and stooped down and pulled a live centennial wasps' nest up by the roots to see what it was. He didn't get it anywhere near the focus of his eyes before he had an idea that it was a flat iron some of the women had set out to cool; then he thought it might be a concentrated case of prickly heat, and then it dawned upon him that he had picked up a raw thunder-bolt, and finally his heart went clear down into his boots as he realized that he had got hold of the dangerous end of Hell Gate explosion, and pulled it off. And he doesn't know any better yet.

THE ANGEL OF HOME.

Often we our eyes are raising,
Heavenward intently gazing,
  In the idle hope that we
May the spirit-forms discover
That around our pathway hover—
  May our heavenly guardian see.

Yet, to meet our earnest longing,
Never angel host comes thronging
  Up before our raptured sight,
Whilst our eyes are veiled from seeing
Some celestial, saintly being
  Ever near us, day and night.

Round her brow no halo beaming
Marks her with angelic seeming
  To our strangely earth-bound eyes,
As she, bent on mission holy
'Mongst earth's suffering poor and lowly,
  Moves, an angel in disguise.

Yes, she is an angel, keeping
Vigils lone when we are sleeping;
  Guarding with such tender care,
Through the night hours, long and dreary,
Souls that she is never weary
  Bearing on her heart in prayer.

And her eyes our path is scanning,
Whilst her busy brain is planning—
  As she sees the gathering haze—
How, by softest spell to charm us
From some hidden snare to harm us
  In life's dangerous mystic maze.

Could the bright-winged hosts above us
With more pure devotion love us—
  With more care our footsteps guide?
Shall our eyes be holden ever;
Shall our hearts be opened never,
  To the seraph by our side?

When earth's brighest lights have faded,
When we walk with brow unshaded,
  'Neath the blue of heaven's high dome,
We shall know how earth-mist clouded
And the spirit-beauty shrouded
  Of an angel in our home; S. C.

FROM MONONGAHELA CITY.

Politics and Partridges—The Metropolis of the Valley—Autumnal Beauties.

Correspondence of the Pittsburgh Gazette.

MONONGAHELA CITY, October 7, 1876.

Some of your readers ought to come up the P. V. & C. Railroad—a delightful run of a few miles,—and see what a handsome little city lies suburban to yours. We have well paved streets, lit up with gas at night, and brilliant with pretty girls in day time. Hard times don't seem to squelch the ardor of "Push," and everything moves along luxuriously. Just now the political fever has grown into spasms, and every night drum beats and horn-blowing signal the faithful to action. The Democrats were the first in the field with their club, Capt. Sam McLean, a veteran campaigner of the Virginia valley, whose club, according to the Pittsburgh *Post* "numbers 168 equipped men," but which I have never seen on parade with over 15 voters and 20 boys. Then we have the Victory Peter Cooper club, composed of workingmen who seem in earnest, and honest, though mistaken in expecting "good times" to follow the defeat of Hayes. The Republicans under the active lead of Doctor James G. Sloan have organized, and the colored people are also up and at work organizing a marching club. The news from Colorado seems to awaken lively anticipations of the news that is to come from Indiana and Ohio.

Meetings are held every week, mostly to listen to speeches from home spouters. Moses Scott, the Ben Butler correspondent, and Louis Bollman, the Indiana visionary, are doing the talking for Tilden. Mr. Lawrence, Mr. Hazzard, Dr. Wood, Dr. Rabe and Mr. Hoffman do the oratorical honors mostly for the Republicans. The Peter Cooper men, also, have had their say. And so you see the "broth is kept boiling."

The Republicans are making arrangements for several big meetings, one of which is to be a mass meeting.

The Patrons of Husbandry of this end are to hold a mass convention on the Bentleyville camp ground, on Thursday, October 12th, at which Hon. Victor E. Piolette is to speak. A big time is expected amongst the grangers.

The Grand Army boys of this city have a wide-awake post here. Its operations are kept entirely free from party politics. They have been sending soldiers' orphans to the State schools, old soldiers to the National Home, and they are expecting to have a good time on the 18th, when a delegation of veterans from Pittsburgh will visit the Post, smoke pipes of peace, and indulge in camp-fire gossip.

The new High School building is being pushed forward, adjoining City Hotel, on West Main street, and will be ready for occupancy by November.

Any forenoon your smoked and begrimed denizens could come up and see us; bring your guns along, hunt partridges—or get a jagger wagon, a girl and a fast horse and drive into the country after butternuts. The golden-tinted autumn leaves, the bracing air, the elegant drives, the ruins of ancient still-houses whose fragrance yet haunts the air—are these no inducements? Come on

—While Autumn heat declines
E'er heat is quite decayed, or cold begun.

TRIFLES LIGHT AS AIR.

THAT Troy widower who slept on his wife's grave during June is married again, and the grave is all covered with weeds.

AN exchange suggests that "the citadel of woman's rights is fast crumbling to pieces." Is this a quiet joke on Mrs. Loose-y Stone?

A DIFFERENCE of opinion—When a hotel guest kicked a waiter who served him wrong, the proprietor said he served him right.

THIS is an age of sudden changes. The girl who is picking up autumn leaves this fall may be picking up codfish a year hence, for a short-haired man with a wart.

YESTERDAY being a warm and pleasant day, most of the boys who attend school were taken suddenly sick, and were obliged to go out in order to pitch pennies behind the barn.

NOW, THEN, has every lady got her seal skin? (Joyful cries of "we have," "of course we have," &c.) Well, then, put them right away, for they have gone out of fashion entirely. Such is life.

MR. LAMER, of Memphis, the other day, pushed a woman off the sidewalk so that she fell and broke a leg. She has this consolation, however, that while she may be lame for life, her assailant will always be Lamer.

THE baby was doubled up by the cramps and yelling at the rate of a mile a minute, as the father and mother stood over the crib with the laudanum bottle between them. "No, Mariar," he said gently, but firmly, "you pour it out; that child's growing so much like your mother that I can't trust myself.

THIS is not only an exciting but very interesting campaign. Women as well as men have a duty to perform to their country, and they should not shrink from it. They cannot vote or appear in processions, but they can cut wood and bring up the coal, and thus leave the men more time to talk up matters.

WHAT a valuable lesson to the obnoxious sort of hotel clerks is that conveyed by the experience of a good and a bad brother of their craft in Delaware. The clerk of one hotel was so rude to a poorly dressed would-be guest that he decamped to another hotel, where he found a clerk so polite that the contrast stung him into the execution of a codicil leaving the young man $25,000. Let all hotel clerks reflect that they may be entertaining legacy leavers unawares.

ONE of the magazine writers asks, "Did you ever hide some sacred thought beneath your pillow and weave a web of tender hope about it?" We never did, and we doubt if any one else ever did. In the first place most people never hide anything beneath their pillow unless it is a handkerchief when they have a cold, and then, if it is under the pillow, how are you going to weave anything around it without lifting the pillow up. The magazinists seem to be asking very foolish questions.

A Society Sensation in the City of Mexico.

At the time of the inception of the Grant Administration at Washington, the Mexican Minister to the United States was Senor Matias Romero. He is described as a man of fine appearance and engaging manners. During his sojourn at Washington he married an American lady of great personal beauty, whom he afterward took to his home in Mexico.

For some time past he has been one of the home Ministers of the Mexican Government, and was esteemed quite a successful diplomatist.

Recently society in the city of Mexico was shocked by the elopement of Romero's fair wife with one Celestino Negrete, a writer for the press in that city. Negrete himself was well married, and took with him considerable of his wealth, and the wife of Romero despoiled her husband of $40,000 worth of money and jewelry.

Whither they fled is entirely unknown, but the matter created no little scandal and surprise, as Negrete was not at all prepossessing in appearance.

Shortly after the discovery of the elopement, Romero appeared in Congress without any apparent embarrassment or conclusion, and delivered an eloquent speech in defense of the Government on some subject then under consideration.

A Slight Mistake.

He was a finely-dressed young man, and he handed a boy a bundle and a bouquet, and said: "Now, bub, look sharp. Take this bouquet to Miss ——, at No. 17 —— street, and take these two shirts around to the laundry to be washed. Don't make a mistake, now." "You bet," replied the boy, but, of course, he went directly to No. 17 —— street, and handed the shirts to Miss ——, and said: "Your feller sent them, with his compliments." The young man sought so explain matters, but the young lady clinched her hands and said that her letters must be returned or there would be a lawsuit.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, October 10, 1876.

Aside from settling the business of the previous week, Mondays are usually days of moderate quiet. Yesterday was a beautiful day, and so far as weather was concerned, all was as favorable as could be asked. The business of the day was considerably improved by the weather, and the banks were well occupied. The demand for discounts was fair in amount, and the paper offered readily accepted, where of the proper quality. The indications of improvement in business continue, although the hopefulness manifested by the business public a short while since is not so marked just now. Altogether business moves along evenly, and without any particular excitement, and with a very fair degree of smoothness and promise.

THE PHILADELPHIA MONEY MARKET.

The Philadelphia *Press*, speaking of the condition of the money market at the close of the week, says: "The increased demand for money, though quite marked, was not sufficiently large to disturb the old relations of supply or demand, or to harden the rates heretofore current. The country banks are not drawing on the seaboard markets to any extent, and the increasing local demand is offset by the return of currency to the banks, which has been paid out in October dividends and settlements, leaving the market in about the same condition of plethora as heretofore. The heavy depreciation in the value of all classes of securities practically increases the supply of money by over a hundred million dollars, and furnishes that much additional capital to the purposes of trade. This is no doubt one reason why the improvement in general business during the past month has been so little felt in financial circles. At the banks first-class mercantile paper was in good demand, and all offerings were taken at 6 per cent., and occasionally at 5—for acceptances running to the end of the year. Among the merchants there appears to be no urgency, most of their business being done on cash or short credits whilst oll with less d [redacted] the banks t lar, but 6@ for prime na ment bonds a als ranged from securities there rate."

REGIST

A good many p bonds, considering th coupon bonds, which hand, the same as a b holding being presump ownership. The questi been agitated, and the wei seems to be "that it is about to hold certificates of reg bonds, which are tranferred the back, as it is to hold U bonds." It is true, if those regi tificates are stolen their transfer ment can be stopped, but if an in party buys stolen certificates the loss be on the owner from whom they had stolen, just the same as if coupon bo and not on the innocent purchaser. T *Journal of Commerce* holds that "a registered certificate transferred in blank, with the signature properly verified, is negotiable, like a coupon bond, and, if stolen and sold on the street, in the hands of an innocent purchaser would be good against the owner."

REDEEMING NATIONAL BANK NOTES.

The present redemption system is a salutary and beneficial one in all respects. It not only affords a means to the banks for the easy redemption of their notes, but by accustoming them to active redemptions, it is preparing the way to specie payments. Frequent redemptions will be inevitable when resumption shall take place, and it is important that the banks, most of which have grown up since suspension began, should undergo some preparation for that event. It prevents the accumulation of bank notes which formerly occurred in the money centres at certain seasons of the year, and so acts to some extent as a regulator of the volume of the circulation. It provides clean, new notes in lieu of the loathsome rags which a few years ago did service as money, and it enables every holder of bank notes, whether they are old or new, to convert them promptly and without expense into the legal tender currency of the land.—*N. Y. Times.*

WHAT "COLLAPSED" THEM.

The time has passed when costly bank buildings add either to the strength or credit of the institutions which erect and occupy them. Next to downright fraud and culpable mismanagement, extravagant bank buildings have done more thany anything else to impair the resources, weaken the credit, and bring about the failure of various collapsed savings banks in this city. —*N. NEW YORK, October 9, 1876.

Money closed easy at 2@3; prime mercantile paper 4@6. The customs receipts were $526,000. The Assistant Treasurer disbursed $16,000. The clearings were $42,000,000. Sterling was steady at 482@484. Gold opened and closed at 109, with sales in the interim at 108⅞. The borrowing rates were flat to 2. Governments closed steady. Railroad bonds were active and generally firm. State securities were quiet. Stocks fluctuated considerably during the morning, but afterwards become strong, and towards the close were active and buoyant, the highest prices of the day being made in some instances. The increasing movement of grain from the West to the seaboard had a marked effect on some of the trunk line shares, notably Lake Shore. Western Union came into prominence to-day, and advanced on reports of increased earnings. The coal stocks, after frequent fluctuations, closed up firm. New York Central, Rock Island and Michigan Central were higher and in demand on the large traffic now going on. St. Paul shares were also better on more favorable reports about the wheat crop than of late. Lake Shore was the most active stock, and advanced to 59 1-8, closing at 59, at which figure 4,000 shares changed hands just at the close of the market. Michigan Central closed at 45⅞, after selling at 44⅞ and 46. Rock Island advanced to 102 3-8, New York Central to 103, and Harlem to 135, closing at these prices. Western Union rose to 72⅞, and closed at 72 3-8. St. Paul common rose to 28⅞, and preferred to 59⅞, closing at 28 1-4 and 58⅞ respectively. Pacific Mail advanced to 23⅞. Northwest shares were quiet and steady. Delaware, Lackawanna & Western recovered from 70 to 71 3 8, closing at 71. New Jersey Central closed at 38, after selling at 36 and 38⅞. Express stocks were firm. There were purchases of 500 shares Lake Share and 400 Delaware, Lackawanna & Western under the rule, these purchases having been made to compel deliveries, which, with the present "short interest" in the market, are irregular. The transactions aggregated 223,000 shares, of which 4,000 were Pacific Mail, 25,000 Western Union, 4,000 Rock Island, 13,000 St. Pauls, 6,000 Erie, 90,000 Lake Shore, 3,500 Wabash, 8,000 Michigan Central, 45,000 Delaware, Lackawanna & Western, and 15,000 New Jersey Central.

Condition of the Markets at Home and Abroad.

PITTSBURGH MARKETS—WEEKLY REVIEW.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, October 9, 1876.

The general position of the leading markets has not varied much during the past week; while orders are mostly small there is a very fair and increasing volume of business in the aggregate. Grain continues in light supply hereabouts, and wheat is higher. Flour firm in tone but unchanged in price. Groceries without a single new feature deserving of special notice. Provisions rather firmer, in sympathy with Hogs. Wool continues strong, with but little stock remaining in first hands. Pig iron in steady demand and firm, but unchanged. Petroleum continues quiet, but an increased trade is only a question of little time. Butter, Eggs and Cheese in steady demand at full prices.

APPLES—Are coming forward more freely and with the supply accumulating and a general desire to realize, prices are weak, although unchanged; $1a1,50 ₩ bbl, the outside figure for choice winter fruit. There appears to have been a large crop throughout the whole country.

ALE—There is no change to note in prices and trade is generally reported dull, like everything else, affected by the hard times. X $8 ₩ bbl to the city and $9 to country; XX $10; India $11 bbls in proportion

chiefly to tanned Leather, most parties having found that the several patent and chemical tannages of leather for belting purposes, at the lower prices at which such are sold, are dearer in the end. We quote:

Inch.	Per Foot	Inch.	Per Foot
1	$ 06	5	$ 34
1½	12	5½	60
2	14	6	66
2½	24	7	78
3	30	8	90
3½	36	10	1 14
4	42	12	1 38
4½	48	14	1 62

Discount 15 to 30 per cent. as to quality and quantity.

BEESWAX—There is a good steady demand at 30c in lots and 35c ₩ lb in a jobbing way.

BRUSHES—White Scrubbing, $10a11 ₩ gross Gray, $11a20; White Bristle, $22a36; Shoe, $13a 0; Horse (wood backs) $22a68; Horse (leather backs) $5a131; extra white-wash, $36a75; Common do, $24 a60.

BROOM HANDLES—We quote in a jobbing way:

No 1 Plain	$16 00 ₩ thousand	
No 1 Painted	24 00	do
Toy Painted	12 50	do

BROOM CORN—Choice hurl in fair demand, with sales at 7 to 8½, as to quality; brush that will work up, 6a6½; medium green, 5½a6; red tipped, 5a5½; inferior, 3a4; crooked, 3a3½.

CORDAGE AND ROPE—There is a fair business in goods of this character, but no change in rates, which we annex as follows:

MANILLA ROPE.

¾ inch diameter and upwards	14¾ cts. per lb
⅝	15 "
¼ and 5-16 in. diameter	15¾ "
Tarred rope and lath yarn	14¾ "
Hay, stave and leather twine	14¾ "

OIL WELL DRILLING CABLES.

Hawser laid	14¾ cts. per lb
" " Bolt Rope Yarns	16¼ "
Sand Pump Rope	14¾ "

SISAL ROPE.

¾ inch diameter and upward	10¾ cts. per lb
⅝	11¼ "
¼ and 5-16 in. diameter	11¾ "
Hay, spoke and leather twine	10¾

CHEESE—The market continues fairly active and firm, the recent sharp advance is fully maintained; prime Ohio factory to the wholesale trade, 12c for August make and 13c for September. Shippers appear confident of being able to maintain current rates, some of them are hopeful of being able to obtain a still further advance.

CIDER—Is offering freely, commission merchants are getting letters from all quarters asking for quotations; as yet, the arrivals have been small, but the demand is light and there is scarcely enough doing to establish prices. Quotations may be given nominally at $3a4 per bbl.

CRANBERRIES—$10a12 per bbl.

CHESTNUTS—There has been but little change in prices since the date of our last report; selling at $5a5.50 ₩ bushel. The inquiry is mainly from the west.

COAL—Bituminous is quotable at 6¼a7½ ₩ bu, delivered. Anthracite, $6 ₩ ton for broken egg by the carload and $6¼a6½ delivered.

COOPERAGE—Oil barrel cooperage weak and drooping. Good dry sawed Heading, $40; circled Heading, 21c per sett; bucked and jointed staves, $33a34; best bucked staves, $32; common do, $30; West Virginia long bucked, $22a24. Oil Barrels ower: countries, $1,20, city make, $1,30.

CEMENT, &c., &c.—There is a fair business within the range of the following quotations: Cement—Rosendale, $2,50a2,75; New Lisbon, $1,80a2,05; Portland, $6a7 ₩ bbl; Youghiogheny, $1,75a2; Louisville, $1,90a2,10. Calcined Plaster—French's $4,75a4; Land Plaster, $2,25a2,50, Lime, $1,15a1,50. White Sand, $1,40a1,50 ₩ bbl.

DRIED FRUIT—There is little or no inquiry as yet, nor is it likely that there will be while the market is so well supplied with green apples. Dried Apples are likely to be plenty and low, while Peaches, on the other hand, will be scarce and high.

EGGS—There has been a fair trade during the past week, but with a supply equal to the demand, no improvement in prices, 19a20c. Dealers generally quote at 20, and many of them refuse to accept less for fresh stock.

FEATHERS—Sales job lots, 57; repacked, 60a63.

FISH—Following are the current rates in a jobbing way:

	₩ bbl.	half bbl.
Ex No 1 Mess Mackerel	$25 00	
Ex No 1 Shore	20 00	
No 1 Shore	18 00

Lake Herring		2 50
Large Georges Codfish	6c ₩ lb	
Medium do	5½ ₩ lb	
No 1 Herring	35c ₩ box	
Scaled do.	50c "	

FLOUR—There has been little or no change in the general position of the market since the date of our last report. We can report a steady consumptive demand, and prices are firm but unchanged, as compared with the date of our last general report. In regard to the future course of the market the views of operators conflict; some predict that prices will go still higher, while others can see no good or substantial reason why the value of this important article should appreciate. It is not generally expected, however, that prices will rule much if any lower, in view of the upward tendency of the Wheat market, and until the price of the latter drops considerably, there is not much probability of any decline on the former; indeed, taking current rates as a basis of comparison, Wheat is bringing more money relatively than Flour. Moreover, the indications at the present writing are favorable for a good export demand, as the Wheat crop of Europe did not turn out as well as expected, and late advices from England indicate that she will be prepared to take a large percentage of the surplus of the United States. It was very generally expected about harvest time that Breadstuffs would likely rule very low during the present cereal year, as the indications then were that there would be a big crop of Wheat both in this country as well as across the ocean, but subsequent events have demonstrated that these expectations were not well founded, as the yield did not turn out as large as expected. As intimated in former reports, winter Wheat Flours are largely superceding spring Wheat in this market, for which two important reasons can be assigned; one is the former is of better quality in consequence of the Wheat having been secured in better condition, and, another lies in the fact that it does not cost quite as much.

GROCERIES—Coffee—Rio being in light supply in first hands during the last week, was strong but very quiet. The stock was reduced at all the Ports to 21,773 bags, and of other descriptions to 5,000 bags and 28,360 mats. Our jobbers are buying as they need the goods; and, at our quotations, which are the ruling figures of the market, are doing better for country merchants than the position of the market East justifies. Sugars are strong, and refined in good demand and much firmer, the refiners being sold well up. The stock of raws is quite reduced, but the market on the seaboard closed quiet at unchanged prices. New Orleans Molasses firm and the market bare of stock. Syrups steady. Rice lower; the Louisiana crop this year will, if we may judge from a late report of A. Thomson & Co., run 20 per cent. above last year. The Carolina crop may fall below on account of labor difficulties and other special causes. The first arrival of Louisiana Sugar at New Orleans was received on the 5th inst. and sold for 10⅛c, and $1 for Molasses same day.

GRAIN—The receipts of Wheat continues meagre, and with an active milling demand, prices are firmer and higher; we now quote Penna. and Ohio red at $1,20a1,22; do. amber, $1,23a1,25. There is but little white Wheat offering here and but little call for it; the inquiry is chiefly for good red, the supply of which, at the present time, is scarcely equal to the demand. Millers complain that Wheat is higher relatively than flour, and this, we believe, is true, but there appears to be no help for it. The Oats market is easier in consequence of increased receipts within the past few days, but prices are still maintained; mixed, 37a38c; white, 39a40c. It was thought by some operators, a few weeks ago, that the receipts would be much larger this month, after farmers got through with their seeding and attending County and State fairs, as well as the Centennial, but as yet the arrivals have not been large, and there has been no accumulation; moreover, the outlook at the present writing warrants the prediction that prices are not destined to rule as low as the trade generally expected. Corn is also firmer and higher, with a light supply and increased demand; sales of Ear on track at 55a 57c, and shelled may be quoted at 57a59c, free in elevator. Advices from the West report that there will be an average crop, and there is no scarcity of old stock, but it is appreciating in value, nevertheless. Rye is in fair demand and light supply, and prices are firm and advancing; we now quote 68a70c, an advance of 8a10c per bushel within the past few weeks. The market for Barley is firmer but irregular; brewers, for some reason or other, are buying sparingly, having resolved, apparently, not to carry as much stock as usual; quotations may be given at 90ca$1,10, according to quality, color and condition.

GRAPES—Quoted at 3a4c per lb.

HAY—Loose from country wagons, $10a15, as to quality and condition. Baled is quoted at $13a15 for No. 1 Timothy, and $10a12 for No. 2. Prairie, $9a12, as to quality.

HIDES—The export demand has fallen off somewhat, and with but limited orders from the home trade, the market rather favors the buyer. We quote:

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY October 9, 1876.

A dispatch from Parker this P. M. reported that market very weak and irregular, with great excitement on 'Change; 10,000 bbls, pipeage paid oil, offered at $3,50, and United certificates, at $3,52½; with no buyers. Shipment neglected. No special cause assigned for the panicky turn the market has taken, but it is doubtless a bear movement.

Refined continues quiet and unchanged; combination prices firm at 26c for Philadelphia and Baltimore delivery, with no buyers at the price demanded. Price to home trade unchanged at 23.

Oil Barrels weak and lower; we now quote countries at $1,15a1,20; and city make, $1,25a1,30, as to size.

ALLEGHENY LIVE STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, October 9, 1876.

CATTLE.

The number on sale, although a little less than that of last Monday, was fully up to the demand; the best evidence was the fact that there were some left over unsold. Dealers generally reported the market as having been unsatisfactory; that in addition to being slow, prices ruled lower. The attendance of buyers appeared to be comparatively small, from which it is safe to conclude that some of the butchers bought a two weeks' supply at East Liberty last week, as the offerings there were unusually large and strong inducements, in the shape of low prices, were held out.

The average quality was about the same as that of last week; while the offerings consisted mostly of the common and medium grades, the supply of the finer qualities was fully up to the demand, and some salesmen averred that the latter declined almost, if not altogether as much as the former. Sales were reported at 5⅛a6c for extra to fancy; 5a5⅛c for good to prime; 4a4⅛c for fair to medium; and 2⅛a3⅛c for Cows, Bulls and Stags. There were a number of Bulls on sale to-day; some of the best brought 3⅛c per lb, and from that down to 2⅛a2⅜c, according to quality.

Butchers continue to complain of very poor meat markets; they all report that their business is much less than it usually is at this season of the year, and it is attributed to the fact that so many people are out of employment and funds as well. Prior to the panic butchers complained that while they had no difficulty in disposing of the fine cuts, they had great trouble in working off their rough meats; now it is the other way. People generally want something cheap now; they do not inquire so much for tender or sirloin steaks and fine roasts; in a word, they want to get all they can for their money.

The stock on sale was reported as follows:

SHEEP AND LAMBS.

The supply was comparatively light, 855 against 1,058 last Monday; we presume that fully three-fourths of the offerings to-day were Lambs, and it is seldom that there are as many good ones offered here at one time as there were to-day. The market for Lambs was reported dull, and in not a few instances concessions were made to close out, and it looked, late in the forenoon, as if there would be some left over. Prime sheep, of which the supply was small, sold readily enough at about last week's prices, 5c per lb. Fair to medium quotable at 4a 4⅛c; common to fair $2a2,50 per head, Lambs 5a5⅛c per lb for good to prime, and $2a3 per head for common to fair.

HOGS.

There was an increased demand to-day, which was no doubt stimulated somewhat by the cooler weather, and the general tone of the market was firmer, but there was no quotable change in prices. Sales were made, in a retail way, at 6a6⅛c, gross.

FRESH COWS.

The market remains about as last reported, prices ranging from $30 to $60, according to quality. But few No. 1 milkers offering.

VEAL CALVES.

Continue scarce, and are bringing full prices, ranging from 5⅛a6⅛c per lb, according to condition and quality.

RIVER NEWS.

State of the Rivers, Movements of Steamboats, &c.

THE stage of water last evening was 4 feet 11 inches. Weather yesterday was all that could be desired for out door business, but, we regret to state, it was very dull.

THE new towboat Josh Cook will soon be completed.

DECK-HANDS and rousters are in demand at Memphis.

THE Enterprise is en route from Cincinnati with a tow of empty barges.

CLERK WM. HARBISON was to have left for Cincinnati yesterday by rail.

IT is feared business will continue dull until after the Presidential election.

THE Fauchion will probably load at Cincinnati this week for Pittsburgh.

THE John L. Rhoads, Capt. J. M. Vandergrift, will commence loading for St. Louis at once.

THE Charley McDonald, it was reported yesterday, would start down the river to-day, flying light.

THE Salt Valley from Ironton arrived and departed, and the Carrie Brooks from Zanesville arrived.

THE Allegheny was reported rising at Oil City yesterday, while the Monongahela was stationary at Brownsville.

THE Emma Graham, Captain John Thornburg, is the regular packet for Cincinnati to-morrow, leaving promptly as advertised.

THE flags of a number of steamers at the wharf yesterday were at half mast in respect to the memory of the late mate, John S. McCabe.

A MEMPHIS dispatch under date of 7th says: The Ark was down from Devil's Elbow after lighters yesterday. She has all of the grounded fleet off the bar, save two, and these she expects to relieve without losing any. The falling river renders the work of relief very difficult.

MR. JNO. J. MCCABE, mate of the steamer Jno. L. Rhoans, died at his residence on Saturday, of malarial fever, contracted during the last up trip of the Rhoads. He was a most estimable gentleman, and was highly esteemed by all who enjoyed his acquaintance. Deceased leaves a wife and five children.

THE Sioux City *Journal* of the 4th, says: The steamers Benton, Key West and E. H. Durffee are expected down from above about Thursday. The steamer Yellowstone, Capt. John Massie, was expected to leave Yankton yesterday afternoon for up river, with the Indian Commissioners. Capt. Grant Marsh, the hero of the Yellowstone, backed the Far West out of Yankton, Sunday, for Fort Rice, with a load of Government goods. Capt. John Todd will have the new steamboats ways at Yankton completed by to-morrow evening or Thursday. He has been crowding the work ever since he took hold of it.

A St. Louis special to the Cincinnati *Commercial* under date of 7th, says: Owing to the breaking up of the great Fair and the departure from the city of a number of strangers, business on the landings was lively. All of the departing boats were overrun with passengers and stock. The Bismarck stopped receiving at noon, and turned considerable stuff over to the Mollie Moore, which follows Tuesday. The Bismarck remains till 9 A. M. to-morrow for people, and goes out to Cairo, drawing six feet scant. A tow clears for the South Monday. There is nothing on berth for the Ohio. The Nail City is loading some of her barges at the pile with iron ore. Rates to New Orleans are 40c for flour and 20c per cwt. The Fannie Tatum is talking of loading for New Orleans, independent, next week, and the R. W. Dugan for Red River direct.

HOME NEWS.

Parties who do not receive the GAZETTE by 7 A. M., are requested to notify the office, and the tardiness will be corrected at once.

The probabilities for to-day are falling, followed by rising barometer, warmer, brisk southerly winds, veering to cold northwesterly, partly cloudy weather, and possibly succeeded by rain areas.

Trains Philadelphiawards.

Smythe's and Braun's excursions yesterday took nearly 2,000 people to the Centennial over the Pennsylvania and Baltimore & Ohio Railroads. Cheap fare pays the railroads. A dispatch received last evening by the Baltimore & Ohio authorities states that their train reached Philadelphia on time, making the run in fourteen hours. A very important improvement on the Baltimore & Ohio road is the introduction of day parlor coaches, which will hereafter be run on all trains. Another excursion train for Philadelphia will leave at 8:45 on Thursday morning next.

Burglaries in Allegheny.

Between four and five o'clock yesterday morning burglars broke open a rear window in the residence of Mr. E. H. Nevin, on Western avenue, near Bidwell street, Allegheny, and entered the house. As Mr. Nevin and family are in Philadelphia at present the house is unoccupied and the thieves had it all their own way. They searched everything in their hunt for valuables and left the furniture, &c, in great confusion. It is not known what was taken, except a picture that hung in one of the rooms, which is missing.

On Saturday a house on Harrison street, near Gallagher street, was entered, the occupants also being at the Centennial. The thieves ransacked the house and also smashed and broke up a lot of the furniture.

CHAMBER OF COMMERCE.

Regular Meeting of the Board of Directors—The Railroad Question Again.

A regular meeting of the Board of Directors of the Chamber of Commerce was held in the rooms of the Board, on Wood street, yesterday afternoon, General Howe in the chair.

There was no business of importance transacted other than a statement from Mr. Murphy, Superintendent, that he had an interview with Mr. Harper, chairman of the committee appointed by the Board to investigate the railroad question, and the probabilities now were that the committee, notwithstanding its former action in declining to serve, would undertake to discharge the duties imposed upon them.

The meeting then adjourned.

THE DIFFERENCE.

Why the Mayor Vetoed the Resolution to Pay Contractor Joyce.

Mayor McCarthy yesterday afternoon returned to Councils, without his signature, the resolution passed at a recent meeting to pay Martin Joyce $5,000 for certain balances due him as contractor for a number of sewers. A resolution of a somewhat similar nature for the payment of $5,000 to C. J. Schultz, on the contract for the Sylvan avenue bridge, received his signature. The question therefore arose in the minds of a good many persons why one had been signed and the other had not.

A GAZETTE reporter called on the Mayor last evening and asked him if he could explain the discrepancy. He answered that there was no similarity between the cases. The amount due Mr. Schultz is the city's portion for the assessment for the Sylvan avenue bridge; that is, it is the amount assessed against the city at large, being the cost of construction over and above that assessed upon property benefitted.

In the case of Mr. Joyce the amount was made upon property holders for the construction of several sewers. They refused to pay the assessments and have taken the case to the courts. Mr. Joyce has lain out of his money for over two years, and the idea in the passage of the resolution was to relieve him from financial embarrassments caused by the neglect to collect the amounts and pay him. The city is undoubtedly liable for the amount in the event that the rebelling property holders carry their point, and Mr. Joyce could obtain his money by suit. Still the law governing the case is very explicit, and the Mayor, in vetoing the resolution, only did his duty. Still, considerable money has been paid out the same way, and Councils had precedents for their action in passing the resolution.

CHURCH TROUBLES.

A Series of Suits Entered Against Bishops Tuigg and Domenec and Revs. Hickey and Grace, Representatives or Financial Managers of the Pittsburgh Diocese of the Catholic Church.

The trouble in the financial management of the Pittsburgh Diocese of the Catholic Church have culminated in a series of suits against the financial managers. Following are the titles of the suits, their nature, as far as can be ascertained, and their legal status:

Bank of Industry against J. Tuigg. This was on three promissory notes, protested one for $500, one for $300 and one for $2,000—drawn in favor of the bank by A. A. Lambing (pastor of the Point chapel). The two first endorsed by Mr. Domenec (Bishop of Allegheny) and George S. Grace (former Chancellor) and the third endorsed by J. Hickey, Treasurer of the Cathedral. Judgment entered by default.

J. Dolan vs. J. Tuigg, and J. Nolan vs. John Burns. This is a joint issue on a promissory note for $1,000, with interest, drawn by J. Hickey in favor of J. Dolan and endorsed by John Burns, consideration for the removal of the remains from Mercy Hospital cemetery. The defence is made that the note was signed before Bishop Tuigg's consecration. To this affiants reply that (1) the defence is legal or valid; (2) that the affidavit does not deny the liability of defendant nor does it set forth that the note was not made by the duly elected treasurer of the Cathedral, and (3) that it does not set forth any matter of fact debarring plaintiff from judgment against him, Bishop of the Pittsburgh Diocese and trustee of St. Paul's Cathedral, nor does it deny that he is said trustee. This case may go to trial.

Bank of Industry vs. the R. C. Church and congregation of St. Paul's. This was a suit on a promissory note for $2,837.72, including interest and protest fees. Judgment by default.

Bank of Industry vs. M. Domenec. This was another suit on promissory note for $2,014.86, including interest and protest fees. Judgment by default.

There is nothing in the narrs. of the two above cases to show why the notes were drawn, but it is supposed they had reference to the debt contracted in building the Episcopal residence. Father Hickey is the maker and Bishop Domenec the endorser. Judgment by default.

Bank of Industry vs. Robert Coward, and Bank of Industry vs. Thos. L. Knowlson.

These are suits joining defendants in issue on two promissory notes, one for $600, the other for $800, both with interest and protest fees amounting to $1,411.30. They have reference to the Orphan Asylum. Judgment by default.

Bank of Industry vs. Hugh Loughrey. This was a suit on a promissory note for $174, including interest and protest fees. The note was drawn by Eugene J. Smythe, Treasurer, and endorsed by Loughrey & Colls and J. Hickey. Defendant gave bail and secured the stay of one year. The note had reference to the gas fitting and plumbing of the Cathedral property. J. Hickey, Treasurer of the Cathedral, is joined in the suit.

J. Dolan vs. John Burns. This suit merely joins defendant in issue with the suit brought by same plaintiff against J. Tuigg, trustee, as above for $1,001.50, in connection with the removal of bodies from the Mercy Hospital Cemetery. No judgment yet.

Bank of Industry vs. A. A. Lambing. This is a suit on promissory note, for $822 86 including interest and protest fees, drawn by Rev. A. A. Lambing and indorsed by J. Tuigg and Geo. S. Grace. It has reference to the Point Chapel debt. Judgment by default.

Bank of Industry vs. R. M. Leonard. Defendant was indorser on a promissory note for $2,002.50 including interest, Fred. Altvater being the maker of the paper. Judgment by default.

PERSONAL.

***Lieut. Cronin was able to be on the street yesterday. He still carries one of the balls that the fleeing burglars gave him. His recovery is a matter for congratulation, as there are few more experienced, active and efficient men on the force.

***Among the names mentioned for Mayor at the coming Allegheny municipal election, we hear that of W. C. Cooke, Esq., formally mentioned by a great many citizens. We have known Mr. Cooke for years, and have no hesitancy in saying he would make a most excellent Mayor, and if he concludes to run, will be a hard man to defeat.

Notice.—For some time past many of our customers have been disappoin'd in not getting what French bread they w'nted at our retail department, No. 18 Fifth avenue. We have increased our facilities and will endeavor hereafter to have a full supply for all.

Regular Meeting Yesterday Afternoon.

A Veto Sustained—The Street Cleaning Ordinance Again Lost—Statement Regarding the Pittsburgh Savings Bank—Proposed Repudiation of Assessments Under the Penn Avenue Act—Relief for the Health Board.

A regular meeting of Pittsburgh Councils was held yesterday afternoon.

SELECT COUNCIL.

DAVID AIKEN, JR.......President, *pro. tem.*
E. S. MORROW.......Clerk.

The gentlemen present in this branch were Messrs. Ahl, Aiken, Barckley, Bates, R. B. Brown, Bruce, Buckley, Carr, Dannels, B. Darlington, H. Darlington, C. P. Duff, Epping, Evans, Felker, George Fox, Gregor Fox, Geiger, Gourley, Goldthorpe, Hayden, Herron, Hunter, Jeremy, Kennedy, Kernan, Kerr, Lagerman, Lappan, Littell, Meyer, Miller, Moore, Murray, McCandless, MacConnell, McClurg, McGimpsey, McKinley, Negley, Nusser, E. M. O'Neill, Jno. O'Neil, Perry, Powers, Reiman, Rodgers, Rolfe, Stoft, Schwarm, Shipton, Sorg, Taylor, Vierheller, Waring, Weldon and Welsh.

The minutes of the previous meeting were read and approved, after which, on motion of Mr. LITTELL, the rules were suspended in order to take up unfinished business.

The Chair presented a communication from the Mayor, returning without his signature the resolution for the payment of $5,000 to Martin Joyce on his contract for the construction of a sewer on School alley, in the Seventeenth ward. The Mayor referred Councils to section 15th of the ordinance entitled "Streets," page 289, of the City Code, which section prescribes the manner of payment of the contractor to be from assessments collected from the property holders benefitted by the improvement. The veto was received and filed, and toward the close of the session of Council an effort was made to pass the resolution over the veto of the Mayor. It failed by a vote of 36 yeas to 7 nays. The requisite number of affirmative votes was 45.

THE GAS CONTRACT.

The ordinance authorizing the Gas Committee to enter into a contract with the East End Gas Company to supply the city with gas was referred to a conference Committee, and Messrs. Littell and Bruce were appointed in behalf of Select Council.

Ordinance for the construction of a bridge from Laurel avenue to Liberty avenue. Laid over until the citizens of that neighborhood have arrived at some decision regarding this improvement.

Ordinance authorizing John D. Negley to erect a weigh scales on Carson street, South Side, Thirtieth ward. Passed.

Ordinance granting Cummings Cherry the right to lay a side walk on Oak alley, in the Third ward. Passed.

An ordinance providing for the letting by contract of the cleaning of streets, lanes and alleys in the First and Second districts was presented by the chair. This is the bill regarding which there was so much discussion last winter both in Councils and in the Street Committee. A motion by Mr. Darlington to indefinitely postpone was lost. Mr. Weldon offered an amendment providing that all the Street, and the Road districts too, be included in the ordinance. The amendment was lost and on final passage the bill was lost also by a vote of 15 yeas to 29 nays.

An ordinance establishing the grade of Union alley, from Irwin alley to Grant street. Passed.

An ordinance for the paving and curbing of Bluff street, from the west side of Miltenberger street to Shingiss street, was, on motion of Mr. KENNEDY, amended by substituting Marion street for Miltenberger street, thereby leaving out two squares, for the improvement of which the property owners do not wish to pay, and then passed.

SYLVAN AVENUE AGAIN.

An ordinance fixing the grade of Sylvan avenue extension provoked quite a lengthy discussion. Mr. ROLFE moved to indefinitely postpone it. Lost. On motion of Mr. BRUCE it was referred to the Board of Viewers to ascertain what the new grade will cost, and whether it will increase or lessen the cost of the extension.

An ordinance authorizing the opening of Reed street, from Overhill street to Dinwiddie street, was referred back to the committee to have the blanks it contains filled up.

An ordinance locating Houck street, in the Thirty-second ward, was lost for want of a legal majority.

The regular order of business was taken up, and Mr. HUNTER presented a request from H. M. Bole for permission to make an outlet from his machine shop to Duquesne way. Referred.

Mr. C. P. DUFF, petition for an ordinance for the assessment of damages caused by the grading of Ridge street, in the Thirteenth ward. Referred.

Also, petition of citizens of the Twelfth and Thirteenth wards for the construction of a bridge over the tracks of the Pennsylvania railroad at Twenty-eighth street. Referred to a special committee, and Messrs. Duff and Jeremy were appointed in behalf of this branch.

Also, resolution for a fire alarm box on Thirty-third street, in the Thirteenth ward. Referred to the Fire Commission.

Mr. LITTELL presented a statement showing that the amount of security given by the Pittsburgh Savings Bank to the city was $400,000. A. Ackley, one of the securities, makes affidavit that he is worth $50,000, having since failed. J. Lippincott, who makes affidavit that he is worth $15,000, has also failed, leaving their bond still good for $335,000, in addition to all the stockholders being individually liable. At the time their attention was drawn to the condition of the two bondsmen they considered the matter and, as they had a large amount of money lying idle in the bank, they tendered the amount for which the broken bondsmen were liable to the Treasurer, of which he has already drawn $49,437.50, leaving only a balance of $70,808.69 in their hands, which they are ready to meet when called for by the Treasurer, which can only be done in a lawful manner. The above statement is the very satisfactory reason for acting in the matter as we did, and in taking the money when they did not see fit to keep it at a cost of additional security." The document was received and filed.

"REPUDIATION."

The following, presented by Mr. BRUCE, was referred to the Road Committee:

WHEREAS, Penn avenue, Frankstown avenue, Cedar street, Taylor street, Winebiddle street, Elm street, Ella street, Main street, Collins avenue, Neville street, Fifth avenue, Shady Lane and Walnut street, Second avenue, Bedford avenue, Wylie avenue, Hiland avenue, Jane street, Webster avenue, Butler street, Pearl street, Forbes street, Brownsville and Washington avenues, Soho, Wadsworth, Emmet and Boston streets, Forbes street No. 2, Carson, Main and Chestnut streets, Ellsworth avenue, Liberty avenue, Stanton avenue, Thirty third street and Lincoln avenue, have lately been graded and paved under the Penn avenue act, and the cost of said improvements are, or are about to be assessed for collection from the properties abutting thereon, and

WHEREAS, It is apparent that fully one-half of said property so assessed is not worth and will not pay the amount so assessed thereon, and

WHEREAS, It would be unjust to compel any portion of the abutting property to pay its assessment and also be subject to the general taxation to supply the deficiency of the non paying parties, and

WHEREAS, Under a general law the city has been lately assessed to pay three-fourths of the expense of grading and paving Wood street and part of Fifth avenue, and is liable to assessment in all similar cases hereafter to be done, therefore,

Resolved, That the Legislature be solicited to pass an act relieving said abutting property from the payment of said unjust and inequitable assessments.

Mr. SHIPTON said that such action as the above proposed would be virtual repudiation, and that the paper ought not to receive a moment's consideration.

An Interesting Dialogue.

We overheard the following dialogue, which gives a fair idea of the value of Centennial Piano awards:

Mr. Jones—Well, Brown, I guess I will have to buy a piano for my numerous family.

Mr. Brown—Eh! What, you going to buy?

J.—Well, I guess I'd better buy a Decker and be on the safe side.

B.—Why, how's that? Did they take first prize?

J.—Yes, they took first prize, too; but then that don't amount to much, as some six or seven others took first prizes, the only noticeable difference being that one received a gold medal and diploma, while the other received a diploma and gold medal.

B.—Well, now, Jones, that must be a mistake; because I saw in the papers several days ago where an agent was advertising his pianos as having received the first prize, and it appeared to be copied from the New York *Picayune.*

J.—Oh! that was only a slight hallucination. That was from the New Orleans *Picayune*, and New York was substituted for New Orleans, because it would seem more likely to be true, because nearer home.

B.—Well, now, such tricks.

J.—But, then, I go for Decker for better reasons. First, it is notorious that some piano makers spent a mint of money to secure the prize, because they could not afford to lose it, no matter what the cost, and also spent months in getting up special pianos for the Exhibition, and of course any maker can make a good *sample piano*, but it is equally well known that the Decker Bros. did not spend one dollar in dining and wining the jury, while their display is just such as you see at all times in their warerooms, or such as you may see any day down here at Hamilton's, on Fifth avenue; and next to the Decker I would take a Haines Bro.'s, for they are splendid, and very cheap for so good a piano. I declare you would hardly believe it, unless you saw them with your own eyes. Come down along to Hamilton's, just down here at 87 Fifth avenue, under Masonic Hall.

And they must have gone, for we saw them in there, bargaining for one apiece shortly afterward.

How to Make Home Happy.

The expenditure of money on household furnishment returns such large dividends of comfort, health and cheering appearance as the outlay for carpets, and especially is this confirmed now by an examination of the varied stock of Tapestry Brussels now offering by Messrs. Oliver McClintock & Co., 33 Fifth avenue. This popular grade of carpets has received close attention from manufacturers and dealers within the last few years, and now in styles and colorings appeals to the most cultivated tastes, and in prices to those of moderate means. Messrs. McClintock daily receive accessions to their stock of the newest things out, and at all times in this, as in all goods in their line, maintain their supremacy in the carpet trade in this vicinity.

Frederick Faulkner and wife and John A. New vs. Thomas Wilson, Error to Common Pleas No. 1, of Allegheny county. In this case the opinion was rendered by Juustice Gordon and was as follows:

Upon the *scire facias* in this case we have a judgment for the full amount of the mortgage, debt, interest and attorney's commissions; and that in the face of an affidavit of defence setting forth its full payment and satisfaction.

This extraordinary judgment was entered upon a rule on the defendants and their vendee, to show cause why such judgment should not be entered with leave to take out execution for commission and costs.

This was all wrong. No judgment could be had upon the *sci. fa.*, except for costs. The mortgage was satisfied, and as the attorney's commissions were a part of the mortgage—incident to it—belonging not to the attorney but to the mortgage they were extinguished when that instrument was satisfied.

That such commissions cannot be collected as costs was settled in the case of the Mahoning county bank's appeal, 8 ca. 158.

Judgment reversed and *procedendo* awarded.

Carnegie as sureties in the penal sum of $5,000, conditioned for the indemnity of the plaintiff against any damage or loss by the future working of the quarries or mines of coal mentioned in the writ.

The First German Evangelical Trinity congregation of Indiana township was granted a charter of incorporation.

The Monongahela Valley Camp Meeting Association and the Allegheny Camp Meeting Association, on petitions presented, were also granted charters of incorporation.

THERE was a hearing in the *habeas corpus* case of John Kerr, the oil barrel man, before Judge White, in Common Pleas No. 2. The case was dismissed and the prisoner remanded, the Court declining to pass on the constitutionality of the act. Judge White stated that the Quarter Sessions Court had the power to suspend sentence and send the cases back to this Grand Jury or the next one, if it were satisfied that injustice had been done. Of this he had no doubt whatever, but it was a matter for the Quarter Sessions Court and not the Common Pleas.

SUIT was entered in Common Pleas No. 1 yesterday by James D. Cremmens against Fred. Gwinner to recover damages in the sum of five hundred dollars for an alleged breach of contract. Plaintiff says he is engaged in the business of paving streets, and that he entered into an arrangement with the defendant by which he, the plaintiff, was to pave Fifth avenue, from Smithfield to Liberty street. He made all his arrangements to do the work—brought skilled workmen to the city, &c., and when he was already to commence the defendant refused to allow him to proceed.

POLICE INTELLIGENCE.

JIM DONNOVAN was before Deputy Mayor King yesterday morning for being a vagrant. He was allowed twelve hours to leave the city, and made tracks accordingly.

SEVERAL cases of breach of discipline in the police force were heard yesterday afternoon by the Mayor. A number of patrolmen were suspended for a few days, and two were dismissed from the force.

THE saloon of Henry Hughes, corner of Thirty-third street and Laurel avenue, was robbed on Sunday night of a lot of cigars, four bottles of whisky, and five dollars in money. The front door was jimmied.

MR. S. ATTERBURY had his pocket picked on the South Side on Saturday night while watching the procession. He lost a city coupon bond and a small sum of money. Payment on the bond has been stopped.

R., Thursday, October 12, the time of train has been changed to leave depot, corner Grant and Water streets, at 8:45 A. M. (city time), instead of 8:15 A. M., giving passengers coming on local morning trains ample time to reach Depot, corner Grant and Water streets. This special excursion train will be composed of elegant parlor cars and day coaches, and will be run through to Philadelphia in 14 hours, giving passengers a daylight ride over the Allegheny mountains, and permit them to view the ever remembered Potomac river and valley scenery, the ruins of the Government buildings at Harper's Ferry, at which point the marks of the late rebellion are still visible. From thence to Washington City, the capital of the nation, destined to outview any city in America for beauty. Baltimore, with its monuments and magnificent harbor, where a good view can be had from the train of vessels carrying the flag of every nation. Thence passing to Philadelphia in time for supper and a good night's rest before visiting the Exposition. Remember that the Baltimore & Ohio Railroad is the only direct route to the great Centennial via Washington City, and the fare is *only seven dollars* for the *round trip to Philadelphia*. So don't forget to go with Braun's excursion. Passengers are permitted to stop en route at Baltimore and Washington City.

Scientific men are pondering over the discovery of a new plant which grows in South America, and which is called coca. Its great merit is that it prevents fatigue and renovates the system Why trouble about it, however, while B. T. BABBITT'S Best Soap does precisely the same thing?

—Mr. Halstead makes the effective reply to the grumblers who have found fault with him for supporting Mr. Greeley in 1872, and returning to the party to work for Gov. Hayes this year: "Our receipt for destroying the Democratic party by the election of Greeley was not tried. The dissatisfaction with Grantism, which appeared with increased energies during the second term of that malady, unfortunately could find no other vent for the time than through the Democratic party, and gave that party the present Congress. At once the party was in conceit of itself again, and there is uncoiled before the country in this campaign the same old serpent. It isn't our snake. It is not the brazen serpent that was lifted up in the wilderness. It is coppery rather. We are in favor of bruising its head. We would kill it if we could; and if we can't do that, we want to scotch it, and keep it scotched."
